Other Skills or Experience

List other skills or experiences potentially useful to a team such as teamwork experience, planning/managing, other programming projects, or work experience. List any students you would prefer to work with.

I enjoy cooperating with my teammate. All of us have different personal skills. As for me, I am good at planning and glad to assist the PM to push forward the project. Besides, I have several project experience, such as the Bank Payment System I did during the winter vacation.
