Other Skills or Experience

List other skills or experiences potentially useful to a team such as teamwork experience, planning/managing, other programming projects, or work experience. List any students you would prefer to work with.

Well, PM is a great position which I really appreciate to get the opportunity to be a "PM". Also, I'm looking forward to the coming cooperation, and I'll be glad to work with you.

I've participated in some competition as a team leader, ICM, for example. So, as a PM, I will try my best to do my job in the team.
